Introduction

This document is called the *List of Covered Drugs* (also known as the *Drug List*). It tells you which drugs are covered by BlueCare Plus & BlueCare Plus Choice. The *Drug List* also tells you if there are any special rules or restrictions on any drugs covered by our plan. Key terms and their definitions appear in the last chapter of the *Evidence of Coverage*.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs (Drug List)*. You can read all of the FAQs to learn more, or look for a question and answer.

B1. What drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “*Drug List*” for short.)

The drugs on the *Drug List* that starts in **Section D** are the drugs covered by our plan. The drugs are available at pharmacies within

our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

Other drugs, such as some over-the-counter (OTC) medications and certain vitamins, may be covered by TennCare’s pharmacy provider, Optum RX. Please click this link [OptumRx’s TennCare Website](#) or visit [welcome.optumrx.com/tenncare/](#) for more information. You can also call the Optum Rx Customer Service Center at 1-888-816-1680. Please bring your TennCare/Optum Member ID Card when getting prescriptions.

- › Our plan will cover all medically necessary drugs on the *Drug List* if:
 - your doctor or other prescriber says you need them to get better or stay healthy,
 - our plan agrees that the drug is medically necessary for you, **and**
 - you fill the prescription at a plan network pharmacy.
- › In some cases, you have to do something before you can get a drug. Refer to question B4 for more information.

You can also find an up-to-date list of drugs that we cover on our website at **bluecareplus.bcbst.com** or call Member Service at the numbers listed at the bottom of this page.

B2. Does the *Drug List* ever change?

Yes, and our plan must follow Medicare and TennCare rules when making changes. We may add or remove drugs on the *Drug List* during the year.

We may also change our rules about drugs. For example, we could:

- › Decide to require or not require prior authorization for a drug. (Prior authorization is permission from our plan before you can get a drug.)

(continued on the next page)

If you have questions, please call BlueCare Plus Tennessee at **1-800-332-5762**, TTY **711**. From **Oct. 1 to Mar. 31**, you can call us 7 days a week from 8 a.m. to 9 p.m. ET. From **Apr. 1 to Sept. 30**, you can call us Monday through Friday from 8 a.m. to 9 p.m. ET. The call is free. **For more information**, visit **bluecareplus.bcbst.com**.

- › Add or change the amount of a drug you can get (called quantity limits).
- › Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we'll cover another drug.)

For more information on these drug rules, refer to question B4.

If you're taking a drug that was covered at the **beginning** of the year, we'll generally not remove or change coverage of that drug **during the rest of the year** unless:

- › a new, cheaper drug comes on the market that works as well as a drug on the *Drug List* now, **or**
- › we learn that a drug isn't safe, **or**
- › a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the *Drug List* changes.

- › You can always check our plan's up-to-date *Drug List* online at **bluecareplus.bcbst.com**. Updates to the *Drug List* are posted on the website monthly.
- › You can also call Member Service at the numbers listed at the bottom of this page to check the current *Drug List*.

B3. What happens when there's a change to the *Drug List*?

Some changes to the *Drug List* will happen **immediately**. For example:

- › **Substitutions of certain new versions of drugs.** We may immediately remove the drugs from the *Drug List* if we replace them with certain new versions of that drug, but your cost for the new drug will appear on the same or lower cost-sharing tier with the same or fewer restrictions. When we add a new version of a drug, we may also decide to keep the brand name drug or original biological product on the list but change its coverage rules or limits.

- We may not tell you before we make this change, but we'll send you information about the specific change we made once it happens.
- We can make these changes only if the drug we're adding:
 - is a new generic version of a brand name drug, or
 - is a certain new biosimilar version of original biological products on the *Drug List* (for example, adding an interchangeable biosimilar that can be substituted for an original biological product without a new prescription).
- Some of these drug types may be new to you. For more information, refer to Section B14.
- You or your provider can ask for an exception from these changes. We'll send you a notice with the steps you can take to ask for an exception. Please refer to questions B10-B12 for more information on exceptions.

- › **Remove unsafe drugs and other drugs that are taken off the market.** Sometimes a drug may be found unsafe or taken off the market for another reason. If this happens, we may immediately take it off the *Drug List*. If you're taking the drug, we'll send you a notice after we make the change. Your prescriber will also know about this change and can work with you to find another drug for your condition.

We may make other changes that affect the drugs you take. We'll tell you in advance about these other changes to the *Drug List*. These changes might happen if:

- › The FDA provides new guidance or there are new clinical guidelines about a drug.
- › we remove a brand name drug from the *Drug List* when adding a generic drug that isn't new to the market, or

(continued on the next page)

If you have questions, please call BlueCare Plus Tennessee at **1-800-332-5762**, TTY 711. From **Oct. 1 to Mar. 31**, you can call us 7 days a week from 8 a.m. to 9 p.m. ET. From **Apr. 1 to Sept. 30**, you can call us Monday through Friday from 8 a.m. to 9 p.m. ET. The call is free. **For more information**, visit **bluecareplus.bcbst.com**.

- › we remove an original biological product when adding a biosimilar, or
- › we change the coverage rules or limits for the brand name drug.

When these changes happen, we'll:

- › tell you at least 30 days before we make the change to the *Drug List* **or**
- › let you know and give you a 30-day supply (or 31-day supply) of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- › if there's a similar drug on the *Drug List* you can take instead **or**
- › whether to ask for an exception from these changes. To learn more about exceptions, refer to questions B10-B12.

B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- › **Prior authorization:** For some drugs, you or your doctor or other prescriber must get authorization from our plan before you fill your prescription. Prior authorization is different from a referral. Our plan may not cover the drug if you don't get prior authorization.
- › **Quantity limits:** Sometimes our plan limits the amount of a drug you can get.
- › **Step therapy:** Sometimes our plan requires you to do step therapy. This means you'll have to try drugs in a certain order for your medical condition. You might have to try one drug before we'll cover another drug. If your prescriber thinks the first drug doesn't work

for you, then we'll cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables in **Section D**. You can also get more information by visiting our website at bluecareplus.bcbst.com. We have posted online documents that explain our prior authorization restriction and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there's a similar drug on the *Drug List* you can take instead or whether to ask for an exception. Refer to questions B10-B12 for more information about exceptions.

B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?

The table in the section titled List of Drugs by Medical Condition has a column labeled "requirements/limits on use."

B6. What happens if BlueCare Plus Tennessee changes their rules about how they cover some drugs (for example, prior authorization, quantity limits, and/or step therapy restrictions)?

In some cases, we'll tell you in advance if we add or change prior authorization, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the *Drug List* change.

B7. How can I find a drug on the *Drug List*?

There are two ways to find a drug:

- › you can search alphabetically, **or**
- › you can search by medical condition.

To search **alphabetically**, look for your drug in the Index of Covered Drugs section. You can find it in the index in Section D. The Index of

If you have questions, please call BlueCare Plus Tennessee at **1-800-332-5762**, TTY 711. From **Oct. 1 to Mar. 31**, you can call us 7 days a week from 8 a.m. to 9 p.m. ET. From **Apr. 1 to Sept. 30**, you can call us Monday through Friday from 8 a.m. to 9 p.m. ET. The call is free. **For more information**, visit bluecareplus.bcbst.com.

Covered Drugs is an alphabetical list of all of the drugs included in the *Drug List*. Brand name drugs and generic drugs are listed in the index.

To search by medical condition, find Section C1 labeled “List of Drugs by Medical Condition.” The drugs in this section are grouped into categories depending on the type of medical conditions they’re used to treat. For example, if you have a heart condition, you should look in the Cardiovascular category. That’s where you’ll find drugs that treat heart conditions.

B8. What if the drug I want to take isn’t on the *Drug List*?

If you don’t find your drug on the *Drug List*, call Member Service at the numbers listed at the bottom of this page and ask about it. If you learn that our plan won’t cover the drug, you can do one of these things:

- › Ask Member Service for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the *Drug List* that’s like the one you want to take. **Or**
- › Ask our plan to make an exception to cover your drug. Refer to questions B10-B12 for more information about exceptions.

B9. What if I’m a new BlueCare Plus Tennessee member and can’t find my drug on the *Drug List* or have a problem getting my drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you’re a member of our plan. This will give you time to talk to your doctor or other prescriber. They can help you decide if there’s a similar drug on the *Drug List* you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we’ll allow multiple refills to provide up to a maximum of a 30-day supply of medication.

We’ll cover a 30-day supply of your drug if:

- › you’re taking a drug that isn’t on our *Drug List*, **or**
- › our plan rules don’t let you get the amount ordered by your prescriber, **or**
- › the drug requires prior authorization by our plan, **or**
- › you’re taking a drug that’s part of a step therapy restriction.

If you’re taking a drug that our plan doesn’t consider to be a Part D drug, and the drug isn’t on the *Drug List*, and you have a problem getting the drug, it may be covered through TennCare’s pharmacy provider, Optum RX. If a Part D excluded drug requires an exception, and you have an emergency, Optum will allow no less than 72-hour supply of the drug. Please click this link [OptumRx’s TennCare Website](#) or visit welcome.optumrx.com/tenncare/ for more information. You can also call the Optum Rx Customer Service Center at 1-888-816-1680. Please bring your TennCare/Optum Member ID Card when getting prescriptions.

If you’re in a nursing home or other long-term care facility and need a drug that isn’t on the *Drug List* or if you can’t easily get the drug you need, we can help. If you’ve been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- › We’ll cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you’re a new plan member.
- › This is in addition to the temporary supply during the first 90 days you’re a member of our plan.

If you have a level of care change (e.g., you’re discharged from a long-term care facility to a home setting) outside of the transition window, you can obtain a one-time supply of a transition-eligible drug by contacting Member Service at the numbers at the bottom of this page.

If you have questions, please call BlueCare Plus Tennessee at **1-800-332-5762**, TTY 711. From **Oct. 1 to Mar. 31**, you can call us 7 days a week from 8 a.m. to 9 p.m. ET. From **Apr. 1 to Sept. 30**, you can call us Monday through Friday from 8 a.m. to 9 p.m. ET. The call is free. **For more information**, visit bluecareplus.bcbst.com.

B10. Can I ask for an exception to cover my drug?

Yes. You can ask our plan to make an exception to cover a drug that isn't on the *Drug List*.

You can also ask us to change the rules on your drug.

- › For example, our plan may limit the amount of a drug we'll cover. If your drug has a limit, you can ask us to change the limit and cover more.
- › Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

B11. How can I ask for an exception?

To ask for an exception, call Member Service. A Member Service representative will work with you and your prescriber to help you ask for an exception. You can also read **Chapter 9 Section G2** of the *Evidence of Coverage* to learn more about exceptions.

B12. How long does it take to get an exception?

After we get a statement from your prescriber supporting your request for an exception, we'll give you a decision within 72 hours. Your doctor or other prescriber can fax or mail us the supporting statement. They can also tell us by phone at **1-800-332-5762**, TTY **711** and then fax or mail the statement.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we'll give you a decision within 24 hours of getting your prescriber's supporting statement.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and generally work just as well. They usually don't

have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA). There are generic drugs available for many brand name drugs. Generic drugs usually can be substituted for brand name drugs at the pharmacy without a new prescription—depending on state laws.

Our plan covers both brand name drugs and generic drugs.

B14. What are original biological products and how are they related to biosimilars?

When we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have forms that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For more information on drug types, refer to **Chapter 5** of the *Evidence of Coverage*.

B15. Does BlueCare Plus Tennessee cover long-term supplies of prescriptions?

- › **Mail-Order Programs.** We offer a mail-order program that allows you to get up to a 100-day (Tiers 1 and 2) or 90-day (Tier 3) supply of your drugs sent directly to your home. A long-term supply has the same copay as a one-month supply.
- › **90- or 100-day Retail Pharmacy Programs.** Some retail pharmacies may also offer up to a 100-day (Tiers 1 and 2) or 90-day (Tier 3) supply of covered drugs. A long-term supply has the same copay as a one-month supply.

If you have questions, please call BlueCare Plus Tennessee at **1-800-332-5762**, TTY **711**. From **Oct. 1 to Mar. 31**, you can call us 7 days a week from 8 a.m. to 9 p.m. ET. From **Apr. 1 to Sept. 30**, you can call us Monday through Friday from 8 a.m. to 9 p.m. ET. The call is free. **For more information**, visit bluecareplus.bcbst.com.

B16. Can I get prescriptions delivered to my home from my local pharmacy?

Your local pharmacy may be able to deliver your prescription to your home. You can call your pharmacy to find out if they offer home delivery.

B17. What's my copay?

Our plan members have copays for prescriptions as long as the member follows the plan's rules.

Tiers are groups of drugs on our *Drug List*.

- › **Tier 1** - Preferred Generic drugs have \$0 copay.
- › **Tier 2** - Preferred Brand name drugs have 25% coinsurance of the total cost of the drug.
- › **Tier 3** - Non-Preferred drugs have 25% coinsurance of the total cost of the drug.
- › **Tier 4** - Specialty drugs have 25% coinsurance of the total cost of the drug.

If you have questions, call Member Service at the numbers listed at the bottom of this page.

C. Overview of the *List of Covered Drugs*

The *List of Covered Drugs* gives you information about the drugs covered by our plan. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins in **Section D**. The index alphabetically lists all drugs covered by our plan. You can find information on what the abbreviations in this table mean on the first page of the *List of Covered Drugs*.

Other drugs, such as some over-the-counter (OTC) medications and certain vitamins, may be covered by TennCare's pharmacy provider, Optum RX. Please click this link [OptumRx's TennCare Website](#) or visit welcome.optumrx.com/tenncare/ for more information. You can also call the Optum Rx Customer Service Center at 1-888-816-1680. Please bring your

TennCare/Optum Member ID Card when getting prescriptions.

C1. *List of Drugs by Medical Condition*

The drugs in this section are grouped into categories depending on the type of medical conditions they're used to treat. For example, if you have a heart condition, you should look in the category, "Cardiovascular." That's where you'll find drugs that treat heart conditions.

The first column of the table lists the name of the drug. Generic drugs are listed in lower-case italics (for example, *metformin*), brand name drugs are capitalized (for example, JANUMET). The information in the "Requirements & limits on use" column tells you if our plan has any rules for covering your drug.

Abbreviations: Requirements & Limits

NDS= Non-extended day supply medication. This drug may be available for up to a 30-day supply only.

B/D= This prescription drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

PA= Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL= Quantity Limit. For certain drugs, the plan limits the amount of the drug that we will cover.

MME= Morphine Milligram Equivalent. Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME) and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than 1 opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.

lowercase italics= Generic drugs
UPPERCASE = Brand name drugs

Drug Tiers

Tier 1= Preferred Generics

Tier 2= Preferred Brands
