YOUR CUSTOM PLAN

A Plan Designed for Impact

When you sign up, you'll get your own AmplifiedConnection Team to set you up for success. Your dedicated data and engagement consultants will meet with you and help create a customized engagement plan that's designed for results.

Here's what to expect from your engagement plan:

Personalized Goals

Your plan is tailored to guide employees toward decisions that meet your specific health and savings goals. It's unique and designed to make a difference.

Impact & Results

Your team creates as many triggers for engagement as possible. The more employees you can reach earlier in their health journeys, the more money you can save.

Evolving With You

Your team monitors your results and reviews them with you quarterly to see how we can dial up your plan for even more success.

YOUR ADVISOR TEAM

A Team That Cares

Your dedicated AmplifyHealth Advisor team knows your plan details inside and out. And this mix of member advisors and clinicians do more than just answer questions. They use a comprehensive set of prompts from our data platform to guide members toward better, more affordable care.

Your Advisor team can:

Find more affordable care options

Steer toward preferred providers

Send reminders and make appointments

Encourage appropriate programs, screenings and medical second opinions

Work together to seamlessly answer both benefit and clinical questions

DATA-DRIVEN CARE

How Technology Saves You Money

Our Health Boost Platform gives your Advisors a 360-degree view of each member's health and their possible risks. Triggers set by your ConnectionTeam send a list of discussion points to your Advisors every time they talk to your employees. This is what we mean by proactive, predictive and personalized.

Our data platform gives you:

Holistic view of each member's needs

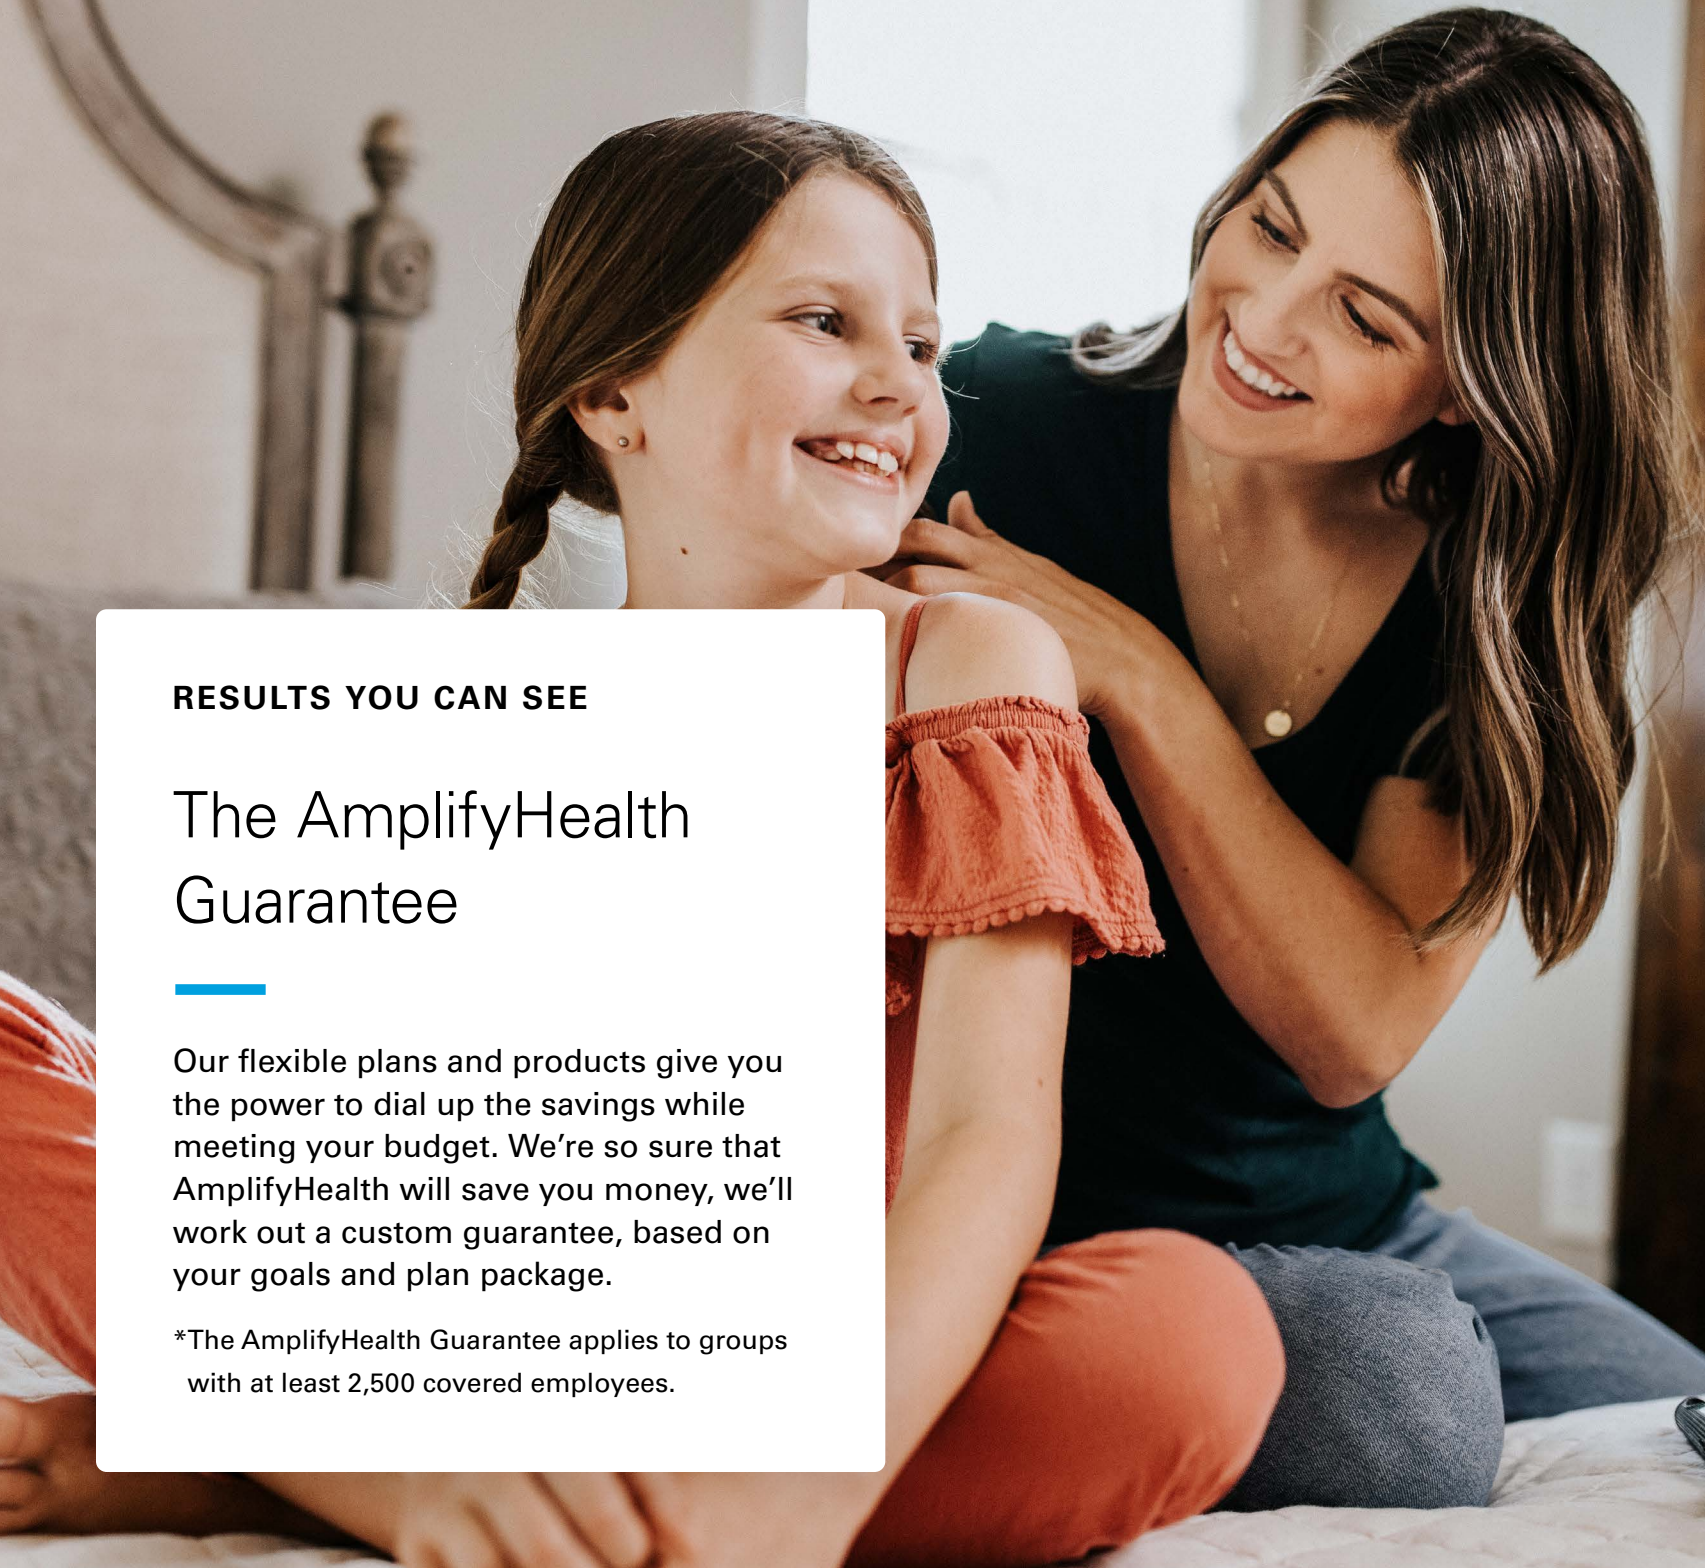

More and earlier triggers for identifying risk

Customized recommendations for each member's engagement

RESULTS YOU CAN SEE

The AmplifyHealth Guarantee

Our flexible plans and products give you the power to dial up the savings while meeting your budget. We're so sure that AmplifyHealth will save you money, we'll work out a custom guarantee, based on your goals and plan package.
