1. Out-of-network benefits may be based on BlueCross BlueShield of Tennessee maximum allowable charge. You may be responsible for any unpaid billed charges for certain services received from out-of-network providers. For emergency care services received at an out-of-network facility, covered items and services received from an out-of-network provider at an in-network facility (unless you give certain providers written consent), or emergent and authorized air ambulance services, in-network benefits including deductible will apply up to the qualified payment amount, and the provider may not bill you for more than your in-network cost share.
2. Prior authorization is required.
3. Certain procedures, services, medication and equipment may require prior authorization.
4. If prior authorization is required but not obtained and services are medically necessary, when using network providers outside Tennessee for physician and outpatient services and all services from out-of-network providers, your liability will be increased -- based on out-of-network coinsurance. If services are not medically necessary, no benefits will be provided.
5. Outpatient behavioral health benefits are determined by place of service. Benefits displayed are for services received in an office setting; separate benefits may apply for outpatient services received in an alternate setting.
6. Surgeries include incisions, excisions, biopsies, injection treatments, fracture treatments, applications of casts and splints, sutures and invasive diagnostic services (e.g., colonoscopy, sigmoidoscopy and endoscopy for non-preventive purposes).
7. Includes CT scans, PET scans, MRIs, nuclear medicine and other similar technologies.
8. Includes services such as chemotherapy, infusions, injections, radiation therapy and renal dialysis.
9. Copay, if applicable, waived if admitted to hospital.
10. Physical, speech, acupuncture, and occupational therapies are unlimited visits per therapy type per annual benefit period. Spinal manipulative therapy are limited to 20 visits per annual benefit period. Cardiac and pulmonary rehabilitative therapies are limited to 36 visits per therapy type per annual benefit period.
20. The lower copay applies to Family Practice, General Practice, Internal Medicine, OB/GYN, Pediatrics, Behavioral Health and Health Department services. The copay for Physician Assistants or Nurse Practitioners may be based on the provider type of the billing provider.

[Limitations and Exclusions](#). These pages summarize your health care plan. Your Evidence of Coverage (EOC) defines the full terms and conditions, limitations, and exclusions in greater detail. Should any questions arise concerning benefits, the EOC will govern.
